PROFILE

Graphic Designer with a Technical Degree in Graphic Design and Visual Communication (2026, GPA 8.5/10). I handle visual identity end to end — logos, vector artwork, packaging, brochures and editorial pieces — as well as audiovisual production: social media content, video editing and image retouching. I design and build complete websites (four launched so far) and offer them as a turnkey service, hosting included. I also develop apps and video games: I code, design and build the visual and audiovisual assets, and create vector-based design proposals for any kind of piece. I published a game on Google Play. Seven years of teaching taught me to explain complex ideas simply and to understand who I am talking to. I work remotely with my own equipment.

EXPERIENCE

Graphic & Audiovisual Designer

2026 – Present

Trofeos Willy (trophy manufacturer) — Rosario, Argentina

- Vectorize client logos and brand marks for application on physical products.
- Prepare and adapt artwork files for production.
- Design graphic pieces and product imagery.

Graphic & Audiovisual Designer

2025 – Present

Pinos Martins Real Estate — Rosario, Argentina

- Create graphic and video content for social media.
- Produce and edit video; image retouching and post-processing.
- Design brochures and institutional communication pieces.

Substitute Teacher — Art, Technology & Computing

2019 – Present

Public and private schools of Rosario — part-time

- 4 years and 6 months of accredited service across 18 educational institutions.
- Lesson planning and production of educational materials and digital resources.
- Integration of design and software tools into classroom learning.

PROJECTS

End-to-end web design and development

Freelance

■ origenargento.com.ar · pizzascaserasd6.com.ar · nihuwebs.com.ar · nihucation.com.ar

■ Designed and built by me: structure, visual experience, interface, content and launch. Own hosting available for clients.

App and game development

2026 – Present

- **CapiRun** — Android game developed and published on Google Play.
- Darkward — new video game, currently in development (Five Stack Games).
- Programming, UI design and production of visual and audiovisual assets (Unity, After Effects).
